

Delivering business value  
by leveraging .NET expertise

*We help Software product companies gain the .net advantage*

**Microsoft .NET** is designed to let businesses adapt quickly and gracefully, so that they can not only be responsive to change but use that responsiveness as a competitive advantage.

By combining the benefits of tight integration with the flexibility of being able to quickly and easily adjust to changing conditions, Microsoft .NET creates the opportunity for businesses to choose the best systems, partners, and applications. Because Microsoft .NET-connected software is built on Web services standards, it enables both new and existing applications to integrate with software and services across platforms, applications, and programming languages.

## Cordiant's .Net expertise

Cordiant is one of the early adopters of Microsoft .Net technology. By leveraging our experience and expertise in .Net, we offer software Product companies the most comprehensive range of .Net software product development services - *from conceptualization, architecture, design, development, testing, deployment and enhancements to porting and ongoing support* - with a view to help them increase efficiency, reduce time-to-market and gain offshore cost savings. We have successfully migrated existing products to .NET environment to provide the benefits of scalability and performance.

## Value Proposition

We stand as an obvious choice for software vendors who wish to harness the *power of Outsourcing*. Our offshore teams perform as a veritable extension of our clients' development teams, working in tandem and total sync, leveraging the 24/7 development cycle.

We help you build competitive products by providing rapid implementation, scalability, and flexibility for a faster return on IT investments while mitigating risk. We have the capabilities, stability, and commitment to help you be more agile with best-in-class products.

By choosing Cordiant as your offshore partner for .net software development, you have the liberty to define the relationship model that best serves your unique business requirements. We have a proven development methodology in place which is carefully crafted to give our clients the advantages of offshore cost savings, world-class quality and speed-to-market.

With a dedicated team of .net professionals, Cordiant is ideally placed to help software product companies gain the .net advantage.

We have an established infrastructure for offshore delivery. Our development centers in Kochi and the International Technology Park, Chennai demonstrate our commitment to invest in infrastructure. Our strong quality policies and procedures take care of our clients' Intellectual Property concerns.

At Cordiant, we have considerable experience offering outsourced product development services to clients from various domain areas like Financial Services, Insurance, Corporate Compliance-SOX, Travel and Leisure, Inventory Management, E-Procurement, Spend Management and Human Resources.

**"I was looking for an alternative to in-house development for our infrastructure systems. We were suffering from a skills shortage and a prohibitive wage bill. Cordiant helped us build first class quality software, developed for a fraction of the cost, in a fraction of the time. It is difficult to see how life could be better!"**

**Jason Rudland,  
Project Manager,  
City Equities**

## Success Stories

- The Ski Holiday Reservation and e-Marketing System that we developed for a leading UK skiing company is recognized by Microsoft Corporation and is included in the success stories compiled by Microsoft. Check out the link below to see for yourself what you will garner by relying on a company and a technology with proven track records.

<http://www.microsoft.com/india/msdn/success/media4.aspx>

- For a US based ISV working for a state agency, we successfully migrated a client/server Inventory Management System to .net environment.

- Currently, we are implementing a large Enterprise Application interfacing with London Stock Exchange Settlement System - Crest, for a leading brokerage house based in the London Financial District.

## About Cordiant

Founded in 1995, Cordiant Technologies builds globally aligned India teams for Independent Software Vendors worldwide. Cordiant has offshore product development centers in Chennai and Kochi, Southern India; and a US subsidiary in Princeton, NJ.
