

Outsourced Product Development for a SOX Vendor

Client

A US based ISV providing market-leading corporate compliance (Sarbanes Oxley) solution to Fortune 500 companies.

The Challenge

The Sarbanes-Oxley (SOX) Act has set many of the toughest corporate governance standards in the world. As a market leading SOX vendor, our partner was faced with the challenge of rapidly delivering the product tailored to their customers' unique requirements within extremely tight timeframes. In essence, a 'tornado' approach to deliver software solutions to a large number of the world's top enterprises was required. A quick ramp-up of highly skilled resources was a necessity. The ISV needed to find a reliable and competent offshore partner who would deliver them the advantage of speed-to-market combined with world-class quality.

Solution

Cordiant deployed a 35 member offshore team who worked as a veritable extension of the ISV's J2EE development team, working in tandem and total sync, leveraging the 24/7 development cycle. Cordiant's technical expertise combined with our commitment to understand the Compliance Domain enabled our team to start delivering value to our partner in a short span of time. Cordiant's product development group worked on enhancement and new features of the core product while the customization group modified the product to suit the requirements of the ISV's individual customers.

Technologies

- J2EE - EJB, JSP, Servlets, Struts
- Web Services, SOAP
- JUnit, CACTUS
- WSAD 5.x
- WebSphere Application Server, JBoss
- DB2/Oracle
- Windows/ Linux

About Cordiant

Founded in 1995, Cordiant Technologies builds globally aligned India teams for Independent Software Vendors worldwide. Cordiant has offshore product development centers in Chennai and Kochi, Southern India; and a US subsidiary in Princeton, NJ.
